A.L.O.C (T) Ltd. announces its new luxury lodge, "E Unoto Retreat" in Tanzania, East Africa. This project is under the direction of Glenn Brock our Vice President.

"Tanzania Maasai" is E Unoto Retreat's theme. It is located in a secluded and natural spot in the Maasai plains outside Lake Manyara National Park, and is easily accessible by road and air, approximately 120 kilometers southwest of Arusha. It is centrally located to all the famous and well-known national parks: Serengeti Plains, Ngorongoro Crater, Tarangire Park and Mount Kilimanjaro.

The setting for E Unoto Retreat is straight out of a "Hemingway" novel, nestled close to the town of Mto wa Mbu; a luxurious lodge with a Maasai Camp configuration. It features spacious 28 ft./9.24 m. diameter individual Maasai style bungalows with private verandas. This five-star facility is near a Maasai village, with authentic Maasai crafts and original works available. The setting of natural beauty overlooking Lake Miwaleni and the Great Rift escarpment hovering above create an "Adam and Eve" atmosphere. Sumptuous international cuisine is served from open-air restaurant and bar clusters overlooking the lake and swimming pool, providing total guest relaxation.

E Unoto includes well-equipped and modern facilities to handle groups of up to fifty overnight guests for meetings, seminars, weddings, parties, etc.

Maasai guides are able to provide guests with a hike for a true nature experience in this secluded area of Tanzania, which is a haven for bird watchers, with more than 350 species native to the area. When planning your next safari or vacation, be sure to book a few days for pleasure and relaxation at our new E Unoto Retreat in Tanzania.
